**Subject:** Notes from 4pm call on 9/19

Hi all.

Here are the notes from our 4pm call. Thanks again to all who called in.

I am not sure that I am sending this to all the new CLs. I checked the roster and it does not appear to be complete. Please let me know if I missed anyone. I have added:

Sherronda Phelps  
Adolphus Talton  
Christine Cherrett  
Joyce Johnson  
Sidrah Kahn

- Orange County CLs heard about a train derailment and a road washed out. Community residents complained of a sheen on the water and on their homes. Mitty was out with Annah and Darriel today and they observed this area. They will elevate the issues they saw in their daily report.
- Orange County CLs also heard about a refrigeration tanker truck in the water, which they investigated. There was indeed a truck in the water. They documented the contact information of the person who reported it and the lat/long of the truck. They will elevate this issue, also.
- Orange County CLs appreciated that their co-lead was able to spend time observing what the team does during their CL duties.
  
- Gloria received a concern about private wells of citizens in Baytown area. Joan took the information from Gloria and stated that she would contact the Harris County – Baytown DRC CLs this evening to ask them to look into it. (This has been done.)

- Two new Bravo Branch CLs shadowed Philip in Wharton County while other new Bravo CLs spent time familiarizing themselves with information at the lab.
- Charlie Branch new CLs shadowed the team to a church and community center.
- Paula and CLs in Bolero had to shelter in place because there was a fire there.
- Fayette team stopped at both the Fayette DRC and county EOC and heard from both that EPA had been there on or around September 10<sup>th</sup>. They didn't need any additional support but told us about a manufactured home community that was situated in the space between a bend in the Colorado River. The force of the flood destroyed all the homes in this area. Homes were knocked off their foundations and rolled over. Some were completely washed away. There is no remediation of these homes, just removal.
- Val sent 238 emails to the all the school administrators in all the branches.
- Sam reminded the Bravo Branch CLs that he needs to have a spreadsheet of all the work done each county from every team. CLs should be keeping good notes on the contacts and work they do so they can provide this information to the co-leads.
- Sam asked if anyone is being asked to participate in community meetings. Only Gloria stated that she was and she was planning on going to a health fair on Thursday and a meeting of the ag. Alliance on Wednesday morning at 8:30am. Wenona reminded Sam that the Vietnamese community had requested an EPA presence at their Night Market event which is coming up either this weekend or the next. This issue had been raised in the daily report at the time.
- Wenona asked if the Vietnamese handouts have been delivered. Sam stated that they were not. Joan asked if these issues that were mentioned in previous daily reports needed to be continuously reported if they have not been resolved and Sam stated that it wasn't necessary to do that. One time should be sufficient.
- No new handouts have been delivered, although Chris took some from Bravo for the alpha teams. If teams need any large quantities of handouts, they should request that through their co-leads. Small numbers of handouts can be printed by the teams.

Hope you all have a great day on Wednesday.

-Joan
